# Getting Started

*Follow these steps to get Local Dining Guide up and running on your local machine.*

## Prerequisites:
**Web Browser:** Ensure you have a modern web browser installed to access the Local Dining Guide interface.

**Internet Connection:** A stable internet connection is required to fetch restaurant data and images.

## Installation
1. **Clone the Repository:** Start by cloning this repository to your local machine.
`git clone https://github.com/yourusername/local-dining-guide.git`
2. **Navigate to Directory:** Move into the project directory.
`cd local-dining-guide`
3. **Launch the Application:** Open the index.html file in your web browser.
`cd local-dining-guide`
